Dear Mr Bellinger,

MATTERS, ISSUES AND QUESTIONS FOR PART 2 HEARING SESSIONS

1. This letter sets out the Matters, Issues and Questions ('MIQs') for the part 2 hearing sessions in respect of the examination of the Wokingham Borough Local Plan Update 2023-2040 ('the Plan'). The MIQs are not intended to cover all facets of the matters identified, but to assist in our consideration of key aspects of the Plan. As such, as we continue our review of the examination documents, we may ask further questions before or during the hearing sessions.
2. Prior to the hearing sessions, written statements from the Council and representors are invited on the MIQs. Where reference is made to evidence produced by the Council, this should be clearly cross-referenced by providing the examination reference and document title, page and paragraph number.
3. It is noted that the Council has submitted a Schedule of Proposed Modifications to the Plan [CD22] and changes to the Policies Map [CD23]. Modifications are

also proposed in Statements of Common Ground ('SoCGs'). For clarity, we are examining the Plan as consulted on at publication¹ stage [CD1]. While we will have regard to the proposed modifications to the Plan, these may only be included if we consider they are necessary for legal compliance or soundness reasons and recommend them as main modifications.

4. The MIQs refer to the 'MM' reference numbers specified for the proposed modifications in the Schedule of Proposed Modifications.
5. The Plan is being examined under the National Planning Policy Framework ('the Framework') published on 19 December 2023. Any references below to the Framework relate to this version.
6. Should further changes to the Plan be proposed as a result of the MIQs, then these should be added to the Schedule of Proposed Modifications. This should be kept up-to-date, and the latest version published prior to the hearing sessions.
7. Further information about the examination, hearing sessions and the format for written statements is provided in the accompanying Guidance Note, and the Planning Inspectorate's Procedure Guide for Local Plan Examinations, which should be read alongside the MIQs.
8. Part 1 hearings took place in November 2025 and covered matters relating to legal compliance and the Duty to Co-operate, strategic transport, the proposed Strategic Development Locations ('SDLs'), and the housing requirement and supply. It is not our intention to revisit these matters. Instead, the Part 2 hearings will cover other matters not addressed during the Part 1 hearings.
9. The main focus of the examination is on the Plan's policies and their supporting text. Therefore, we will consider points made in relation to other aspects of the Plan (e.g. the Vision and Objectives) as part of our consideration of the soundness of the relevant policies and their supporting text.

- 8) Have the potential sources of additional supply identified in the Gypsy and Traveller and Travelling Showperson Accommodation Assessment [HO4] been thoroughly investigated? This includes regularisation of unauthorised sites, expansion/intensification of existing sites, and addressing the occupation of authorised pitches by non-Gypsy and Traveller households.

- 9) If negotiated stopping arrangements are to be used for transit provision, how would this work, and which land would be used? What procedures are in place to ensure any such approach is effective?

N.B. The suitability, viability, and deliverability of the SDLs were addressed during the Part 1 hearings. The Part 2 hearings will instead focus on the detailed policy wording and requirements.

Issue 1 - Requirements that apply to each of the SDLs

- 1) Is it justified to require the provision of custom build housing on each of the SDLs, and is this likely to be effective?

 - c. Is the assessment that has been undertaken robust in all other respects?

Issue 2 - Other residential site allocations (Policy SS14)

- 5) In responding to question 4), please can the following be addressed specifically:

 - b. **SS14.22:** Is the allocation consistent with Policy C6, which requires existing refuelling stations to be retained except where operationally

unviable, particularly as the site owner's Regulation 19 representation indicates that the refuelling station 'serves an important role and is viable'?

- c. **SS14.23:** is a modification required to delete this allocation following a change in the site's availability for housing, as set out in the Council's response to the Inspectors' Initial Questions [WBC6]?
